

Grabener, E.
A SIMPLIFIED "GASTRACID" TEST. [1962] 5p.
11 refs.

Order from SLA \$1.10

63-10042

Trans. of Deutsche Medizinische Wochenschrift
(West Germany) 1962, v. 87, no. 3, p. 1613-1614.

DESCRIPTORS: *Stomach, Secretion, *Acids, Test
methods, Urine, Medical procedures, *Colorimetry,
Drugs, Caffeine, Pyridines

A simplified form of the "Gastracid" test is described:
no control urine sample is required. After a red colour
of the acidified urine has developed, alkalinity is
achieved by adding sodium hydroxide. If the red colour
disappears, the test is positive and a control urine
sample need not be tested. 50 control tests were per-
formed to show this; if desired, a cup of Nescafe can
take the place of the caffeine tablet. In patients con-
fined to bed this is in fact preferable. (Author)
